

Cloth Jacket Insulators

BriskHeat® Cloth Jackets insulators maximize coverage and efficiency by providing insulation around the entire object. Cloth jacket insulators are ideal for a wide range of applications.

Ideal for:

- | | | | |
|---------------------|-----------------|------------------------|-------------------|
| • Freeze Protection | • Flanges | • Power Generation | • Geothermal |
| • Valves | • OEM | • Personnel Protection | • Exhaust Systems |
| • Industrial | • Drilling | • Heat Exchangers | • Turbines |
| • Military | • Energy | • Sound Attenuation | • Aerospace |
| • Process Control | • Conservation | • Instrumentation | • Tanks |
| | • Tubing | | • Biomedical |
| | • Semiconductor | | |

Product Highlights

- ✓ Reusable, durable, and economical
- ✓ Easy-to-install
- ✓ Designed specifically for your application
- ✓ Versatile
- ✓ Thermally efficient
- ✓ Ingress Protection IP5X

Design Options:

Facing and Liner

Wide variety of materials available to meet your temperature and environmental needs

- Silicone Impregnated Fiberglass Cloth
- PTFE Gray Cloth
- Cleanroom Materials
- Aluminum Cloth
- And More

Insulation

Fiberglass, glassmat, or ceramic materials available in multiple thicknesses

Fastener Options

- Hook and Loop
- Hook and Lace
- Circumferential Belts with "D" rings
- Terminal end Rope Draw-Cord
- Grommets

Let our industry-leading engineering team design the perfect jacket for your application.
